

Introducing

Graham Decompression Scissors

- Revolutionary new design.
- Blunt extension gently lifts offending tissue to allow accurate transection.
- Ideal for carpal tunnel, tarsal tunnel and intermetatarsal neurolysis, as well as tendon sheath dissection.
- Blade edges are "super-cut" to ensure long-lasting use.
- Made in Germany of premium German stainless steel.
- United States Patent Pending.
- Set of three includes – straight, right curve and left curve.
